

Bird Banding Resume

Jason M. Winiarski

January 2024

Banding Experience

Natural Resources Research Scientist, Wisconsin Department of Natural Resources

- *Dates & hours worked:* March–August, 2022–2023 (40 hrs/week)
- *Species banded:* Mallard (*Anas platyrhynchos*)
- *Number handled:* ~70 captured and banded
- *Trapping techniques:* night-lighting, bow net/hand capture at nest, cannon net, hand net
- *Auxiliary marking:* backpack GPS transmitter (~70 individuals)
- *Additional authorizations:* blood (~70 individuals) and feather (~70 individuals) sampling
- *Banding location(s):* Brown, Dane, La Crosse, Manitowoc, Marathon, Marquette, Outagamie, Shawano, Sheboygan, Vilas, and Winnebago County, Wisconsin
- *Permit holder:* Master banders - Brian Dhuey, Wisconsin Department of Natural Resources (#05322) and Donald Avers, Michigan Department of Natural Resources (#03110); Sub-permittee - Jason Winiarski (#05322-IQ and #03110-GP)

Graduate Research Assistant, Boise State University

- *Dates & hours worked:* December 2017–August 2021 (40 hrs/week)
- *Species banded:* American kestrel (*Falco sparverius*)
- *Number handled:* 48 captured and banded
- *Trapping techniques:* bal-chatri and hand-grab at nest box
- *Auxiliary marking:* backpack Argos/GPS transmitter (2 individuals)
- *Additional authorizations:* blood (3 individuals), claw (22 individuals), and feather (27 individuals) sampling
- *Banding location(s):* Ada County, Idaho; Riley County, Kansas; Doña Ana County, New Mexico; Yakima County, Washington, Miami-Dade, Monroe, and Okaloosa County, Florida; Imperial County, California
- *Permit holder:* Master bander - Dr. Julie Heath (#23307); Sub-permittee - Jason Winiarski (#23307-AB)

Graduate Research Assistant, North Carolina State University

- *Dates & hours worked:* April–July, 2014–2015 (40 hrs/week)
- *Species banded:* Bachman’s sparrow (*Peucaea aestivalis*)
- *Number handled:* 122 captured and banded
- *Trapping techniques:* mist-netting
- *Auxiliary marking:* color bands (114 individuals) and leg-loop radio-transmitters (39 individuals)
- *Additional authorizations:* blood sampling (23 individuals)
- *Banding location(s):* Bladen, Pender, and Brunswick County, North Carolina
- *Permit holder:* Master bander - Dr. Chris Moorman (#23822); Sub-permittee - Jason Winiarski (#23822-C)

Faculty Research Assistant, Oregon State University

- *Dates & hours worked:* March–August, 2011–2013 (40 hrs/week)
- *Species banded:* northern spotted owl (*Strix occidentalis caurina*)
- *Number handled:* ~30 captured and banded
- *Trapping techniques:* noose-pole and hand capture
- *Auxiliary marking:* color bands (~30 individuals)
- *Additional authorizations:* NA
- *Banding location(s):* Willamette National Forest, Oregon
- *Permit holder:* Master bander - Dr. Daniel Roby (#05271); Sub-permittee - Jason Winiarski

Avian Field Assistant, York University

- *Dates & hours worked:* February–March 2011 (40 hrs/week)
- *Species banded:* passerines and near passerines with emphasis on wood thrush (*Hylocichla mustelina*)
- *Number handled:* ~50 extracted and banded
- *Trapping techniques:* mist-netting
- *Auxiliary marking:* color bands (~20 individuals) and attached leg-loop geolocators (~10 individuals)
- *Additional authorizations:* feather, blood, and toenail sampling (~30 individuals)
- *Banding location(s):* La Selva Biological Station, Costa Rica
- *Permit holder:* Master bander - Dr. Bridget Stutchbury

Project Assistant, Cary Institute of Ecosystem Studies

- *Dates & hours worked:* August–September 2010 (30–40 hrs/week)
- *Species banded:* passerines and near passerines with emphasis on American robin (*Turdus migratorius*)
- *Number handled:* ~20 extracted and banded
- *Trapping techniques:* mist-netting
- *Auxiliary marking:* NA

- *Additional authorizations:* American robin held in captivity in an animal husbandry facility for up to 3 days (~15 individuals)
- *Banding location(s):* Cary Institute of Ecosystem Studies, Millbrook, New York
- *Permit holder:* Master bander - Dr. Kenneth Schmidt (#22921); Sub-permittee – Jason Winiarski (#22921-L)

Avian Research Assistant, Texas Tech University

- *Dates & hours worked:* May–July 2010 (40 hrs/week)
- *Species banded:* passerines and near passerines with emphasis on veery (*Catharus fuscescens*)
- *Number handled:* ~100 extracted and banded
- *Trapping techniques:* mist-netting and hand capture
- *Auxiliary marking:* color bands (~50 individuals) and attached leg-loop transmitters (~10 individuals)
- *Additional authorizations:* blood sampling (50 individuals)
- *Banding location(s):* Cary Institute of Ecosystem Studies, Millbrook, New York
- *Permit holder:* Master bander - Dr. Kenneth Schmidt (#22921); Sub-permittee – Jason Winiarski (#22921-L)

Avian Field Intern, Smithsonian Migratory Bird Center

- *Dates & hours worked:* January–May 2010 (40 hrs/week)
- *Species banded:* passerines and near passerines with emphasis on American redstart (*Setophaga ruticilla*)
- *Number handled:* ~50 extracted and banded
- *Trapping techniques:* mist-netting
- *Auxiliary marking:* color bands (~50 individuals)
- *Additional authorizations:* feather, blood, and toenail sampling (~50 individuals)
- *Banding location(s):* Font Hill Nature Preserve, Jamaica
- *Permit holder:* Master bander - Dr. Peter Marra

Project Assistant, Cary Institute of Ecosystem Studies

- *Dates & hours worked:* August–September 2009 (30–40 hrs/week)
- *Species banded:* passerines and near passerines with emphasis on American robin, wood thrush, veery, and gray catbird (*Dumetella carolinensis*)
- *Number handled:* ~50 extracted and banded
- *Trapping techniques:* mist-netting
- *Auxiliary marking:* NA
- *Additional authorizations:* focal species held in captivity in an animal husbandry facility for up to 3 days (~40 individuals)
- *Banding location(s):* Cary Institute of Ecosystem Studies, Millbrook, New York
- *Permit holder:* Master bander - Dr. Kenneth Schmidt (#22921); Sub-permittee – Jason Winiarski (#22921-L)

Avian Research Assistant, Texas Tech University

- *Dates & hours worked:* May–July 2009 (40 hrs/week)
- *Species banded:* passerines and near passerines with emphasis on veery and ovenbird (*Seiurus aurocapilla*)
- *Number handled:* ~100 extracted and banded
- *Trapping techniques:* mist-netting and hand capture
- *Auxiliary marking:* color bands (~50 individuals)
- *Additional authorizations:* blood sampling (~50 individuals)
- *Banding location(s):* Cary Institute of Ecosystem Studies, Millbrook, New York
- *Permit holder:* Master bander - Dr. Kenneth Schmidt (#22921); Sub-permittee – Jason Winiarski (#22921-L)

Avian Field Technician, University of Rhode Island

- *Dates & hours worked:* September–November 2008 (40 hrs/week)
- *Species banded:* passerines and near passerines, blackbirds, woodpeckers, flycatchers, sparrows, and owls
- *Number handled:* ~300 extracted and banded
- *Trapping techniques:* mist-netting
- *Auxiliary marking:* NA
- *Additional authorizations:* blood sampling (~30 individuals)
- *Banding location(s):* Block Island, Rhode Island
- *Permit holder:* Master bander - Dr. Scott McWilliams
